

COMMERCIAL AND FINANCIAL

Corn Led the Dance on the Board of Trade.

WHEAT DECLINED AND RALLIED. But the Visible Supply Statement Was Recieved the Weaker Feeling Which Succeeded the Opening Was Not Added to Much.

CHICAGO, March 18.—Corn led the dance of the Board of Trade today, ending 3/4 higher for May. A decrease in the visible supply and reported buying for export was the cause.

Wheat started at 1/4 advance over the price ruling at the close of Saturday's session. The entire week was of a mixed character. Dry weather throughout the winter wheat country, steadiness in the English markets and a decrease of 22,000 bu. in the Liverpool stock of wheat last week were the items from which the bulls drew their courage.

OMAHA GENERAL MARKET.

Condition of Trade and Quotations on Staple and Fancy Produce.

EGGS—Per doz., 18c. BUTTER—Child's, 60c; common to fair, 50c; fancy, 60c to 65c. CHEESE—Swiss, 12c; Cheddar, 11c; Colby, 10c; Limburger, 9c.

OMAHA STOCK MARKETS

Among the Cattle the Proportion of Beef Steers was Quite Large.

SELLING INTERESTS NOT WELL PROTECTED. Good Feeders Were Not Very Plentiful and As There Was a Pretty Good Demand Late Quotations Were Not Changed.

MONDAY, MARCH 18.

The receipts today were 2,288 cattle, 2,755 hogs and 841 sheep, as against 1,242 cattle, 1,200 hogs and 117 sheep on Saturday and 1,416 cattle, 1,100 hogs and 1,127 sheep on Monday of last week.

CATTLE—Today's receipts of cattle consisted of eighty-seven head loads, 2,288 head, against fifty-seven head loads on Saturday and forty-seven head loads on Monday of last week. In fact today's receipts were the largest of the month so far.

Among the cattle the proportion of beef steers was quite large. At the same time there were no great quantities of real good corn fed steers. There were a few natives, one bunch being good enough to bring \$5.47, but the greater proportion consisted of westerners.

The situation was very favorable to the selling interest. In addition to there being a larger number than usual the receipts from Chicago indicated a lower market, which was sufficient to make the buyers rather bearish.

In some cases salemen thought they succeeded in obtaining pretty nearly Saturday's prices for cattle which happened to especially strike the buyers' fancy, but as a general thing the market was lower. The close was slow and the market weak.

Good cows and heifers were in light supply and for that reason the market on that class of cattle had to be made up on steers. Good cows have been selling at a good time, the demand being large in proportion to the supply.

Good feeders were not very plentiful, and as there was a pretty good demand for the first of the month the market was not very active. Light stock of cattle was not much changed.

Light stock of cattle was not much changed. Light stock of hogs was in large supply and the market was light and the market slow at the close. There was a fair amount of demand for the first of the month and the lower market is the result.
